**ADDRESS** 607 E. Paces Ferry Rd.  
Atlanta, GA 30305

### Profile

Junior full-stack web developer with focus on front-end. Passionate about the industry; values learning and using the right tool for each job. Does improv comedy on nights and weekends.

### Experience

#### Sideqik

January 2015 - July 2015 (7 months)

#### *Software Development Intern*

My responsibilities involved implementing new features and fixing bugs on both the front- and back-end levels of a web application, as well as contributing to general efforts throughout the company. This included...

- Participating in daily standups and bi-weekly sprint planning meetings
- Designing and implementing a tagging/grouping system
- Adding a back-end structure for displaying notifications
- Providing voice-over work for a new company advertisement

### Education

#### Georgia Institute of Technology

2013 - 2017 (4 years)

#### *Bachelor of Science in Computer Science*

Threads: Artificial Intelligence, People
